President Wilson's program for our national defenses.

"Almost 90 per cent of our munition plants, shipbuilding plants, navy yards, and government store houses miles around New York, where they peaceful epoch of preparation, with could be captured in a two weeks' in another great war " he was asked. tensive campaign by a prepared, efdelent enemy.

"Right," he replied.

The Salvation of the Nation."

"These plants which in time of war rould have to fred the muscles of our Enters, should be located around the country in all sections, so that the lose of any one section would not make it inpossible for us to keep up the fight. Chicago Ideal Arsenal Center.

"Chicago, by reason of its wonderful rail and water communications, is me of the logical centers for a nationwide chain of arsenals, explosive plants, cartridge factories, and store houses. I should say that Detroit would rank next.

The history of ull wars is that a nation's dangers are as great as her weaknesses, and as great as the temptation to plunder her, Regard No man or woman who cats meat regu- leas of condemnation, the undenlable

result of overpreparation. The exact the only one that had perfected her plans of preparation years in advance Furthermore, Germany is spending all of her money at home, which distantly removes the prospects of exhaustion. When war came Germany had mor than 100,000 machine guns on hand For nine years she paid British arms companies a royalty on 600 machine guns a month. The English falled to see the great use of this weapon.

May Last Seven Years. "I predict that the war will last from three to seven years longer, I also think that the war will end in a frust I don't believe that either side will come out of the war exhausted liber economically or in men. I think they will come out stronger in the and England maybe poorer, but ins initely more potential.

"In spite of the submarine raids on English warships, the submorine has of yet eliminated the dreadmounts and superdreadnaught. England has ost most of its big ships through lack of preparation in destroyers to defend Incress."

Munitions Not Chief Need. Mr. Maxim is chairman of the committee on ordnance and explosives of the civilian consulting board of the
